- This product is only compatible for printing on digital dry toner production presses
- In the press settings, use the textured or uncoated paper setting at the corresponding gsm
- DO NOT be alarmed by the lack of texture on the unprinted sheets — the soft touch coating is activated during the printing process
- BE SURE to test print for satisfactory color accuracy and vibrancy — the soft touch coating can mute solid density.

If you have any questions, please call us at 636-349-6401.

Thank you for choosing Masterpiece Graphix!
