2.3 mil White BOPP ID / Removable / 8pt Tag 0-Split
20.75" x 29.5"

Facestock:
2.3 mil White BOPP

Adhesive:
Removable

Liner:
Tag 0-Split

DESCRIPTION:

MGX's 2.3 mil white BOPP film, featuring a 50% gloss level, offers exceptional whiteness and opacity. With high machine-direction stiffness and tensile strength, it ensures superior high-speed label dispensing. The specialty clear acrylic adhesive provides good initial removable tack, excellent clarity, and minimal cold flow. It is removable on various substrates, including corrugated and many plastic surfaces. The film comes with a 100# tag liner, silicone-coated on one side for controlled release, and has exceptionally high internal strength for enduring conventional processing operations like die-cutting, perforating, fanfolding, and refolding.

APPLICATIONS:

Window Decals • Stickers • Window Signage

	Physical Properties	Measure	Value
FACESTOCK	Caliper	mils	2.3
	Tensile MD	lb/in	20000
	Tensile CD	lb/in	35000
	Opacity	%	89.0%
	Regulatory Compliance	CA Prop 65, RoHS, REACH, CPSIA, TPCH, Indirect Food	
ADHESIVE	Type	Removable Acrylic	
	Shear		110 min.
	Minimum Application Temperature	°F	40°F
	Service Temperature	°F	-65 °F to 150 °F
	Typical Adhesion - Stainless Steel	180° Peel	4.7 lb/in
	Typical Adhesion - Stainless Steel	Loop Tack	1.70 lb/in ²
	Typical Adhesion - Glass	180° Peel	3.0 lb/in
	Typical Adhesion - Polyethylene	180° Peel	1.4 lb/in
	Typical Adhesion - Corrugated	180° Peel	3.2 lb/in
	Typical Adhesion - Painted Metal	180° Peel	4.5 lb/in
Regulatory Compliance	CA Prop 65, RoHS, REACH, CPSIA, TPCH, Indirect Food		
LINER	Caliper	mils	8
	Tensile MD	lb/in	70
	Regulatory Compliance	CA Prop 65, RoHS, REACH, CPSIA, TPCH
