

Xquisite™ is a semi-rigid polypropylene based film that delivers exceptional performance across a variety of print technologies. Its smooth, rich feel and outstanding tear, water, chemical and abrasion resistance make it the preferred choice for durable applications and an economical alternative to lamination. Perfectly balancing rigidity and flexibility, Xquisite™ is ideal for both flat and folded applications such as menus, field manuals, horticultural tags and more.

BENEFITS:

- Excellent Quality
- Tear Resistant
- Water & Chemical Resistant
- Abrasion Resistant

APPLICATIONS:

- Menus
- Manuals
- Shelf Talkers / Danglers
- Produce/Deli Signage
- Horticultural Tags
- Integrated Card Forms
- Retail Displays
- Maps

MARKETS:

- Retail
- Restaurant
- Hospitality
- Airline
- Amusement/Entertainment

Which Xquisite™ is right for you?

NEW REFORMULATED Xquisite™ DT (Dry Toner)

Engineered for superior performance on Production Dry Toner presses.

Our reformulated coating provides the highest quality output, significantly reducing post print static and fortifying toner adhesion and durability.

Xquisite™ MP (Multi-Platform)

Engineered for versatile performance across HP Indigo, Konica Minolta KM-1 and select Production Dry Toner presses.

Our exclusive coating technology optimizes printability, delivers superior ink adhesion with exceptional foldability.

NEW Xquisite™ OP (Offset Printing)

Engineered for Conventional and UV Offset presses. Specialty inks are required for conventional printing.

Printed on MGX 10 mil Xquisite™ DT Synthetic Paper on a Ricoh C9200.
