

# PRESSURE SENSITIVE

Our film-based pressure sensitive products are compatible across HP Indigo and Production Dry Toner presses and are available with a range of adhesive and liner options, making them a perfect fit for your next label, sticker, signage or decal project.

## BENEFITS:

- Clean Removability
- Extensive Selection
- Broad Compatibility
- Cuts Cleanly
- Indoor & Outdoor Use

## APPLICATIONS:

- Beverage Labels
- Warning & Product Identification
- Freezer/Refrigerator Decals
- Wall, Floor & Window Decals
- Bumper Stickers

## MARKETS:

- Manufacturing
- Personal Care & Beauty
- Food & Beverage
- Healthcare
- Retail

## WHICH ADHESIVE IS RIGHT FOR YOU?

### Low Tack Adhesive

A non-permanent adhesive with sustained low tack to flat and smooth surfaces. Provides clean removability, even after prolonged use.

### Repositionable Adhesive

A versatile adhesive providing low initial tack that builds to medium adhesion over time, allowing for repositionability, removal and reapplication to smooth and semi-rough surfaces with clean removability. Excellent hybrid solution that perfectly balances the lasting performance of permanent adhesives with the ease of removal that low tack adhesives offer.

### Permanent Adhesive

An adhesive with medium initial tack that builds to permanent adhesion quickly. Provides lasting performance on a variety of smooth surfaces, both indoor and outdoor, and across a wide temperature range. Also available for rough textured surfaces (see MGX-1041).
