

Unilustre® is an exciting new range of metallized board developed for the digital print market. Expanding design possibilities beyond traditional foil stamping by delivering the bold, reflective look of foil—without the environmental impact. This innovative substrate opens up new creative frontiers, with a wide array of special effects—from metallic process colors and watermarks to gradations, patterns, and built-in security features.

BENEFITS:

- Excellent Printability
- Vibrant Shine & Reflectivity
- Enhanced Artistic Depth
- Metallic Colors
- Special Effects
- Eye-Catching Appeal

APPLICATIONS:

- Event Passes / Credentials
- Commemorative Tickets
- Trading Cards
- Business Cards
- Packaging
- Premium Invitations
- Holiday Cards
- Magazine / Book Covers

MARKETS:

- Retail
- Entertainment
- Consumer Goods & Packaging
- Gaming
- Mass Media

Which Metallized is Right for You?

Unilustre® ID (Indigo)

Engineered for exceptional performance on HP Indigo presses

Unilustre® DT (Dry Toner)

Engineered for superior performance on select Production Dry Toner presses, our DT coating provides the highest quality output, fortifying toner adhesion and significantly reduces post print static

Unilustre® OP (Offset Printing)

Engineered for both Conventional and UV Offset printing, offering remarkable dry times and post cure rates

Unilustre®
Fully-Recyclable Fully-Repulpable

**SUSTAINABLE SHINE
